

SAFETY FIRST

If you are collecting the equipment for someone else, please make sure this sheet is given to the equipment user to read. This sheet should be given to the site supervisor if the equipment is being hired for commercial use so that the information is available to all users. Before starting any job, be sure to spend a few minutes planning and understanding the hazards and risks of the activity and determining how you will control them to prevent injury or damage.

<p>Note: This safety and instruction sheet is on the main machine only, you will be issued with additional sheets for the attachments you have.</p>	<p>REQUIRED SAFETY EQUIPMENT</p> 
	<p>Safe Working Controls</p> <ul style="list-style-type: none"> • All propping etc must be 100% plumb • Eyeing it up is not good enough • Toggle clips must always be snugged down • Always use correct prop pins • Always dismantle in the reverse order to assembly • Always report loose frames and props and tape area off if considered dangerous • Be aware of loose formwork • Use correct lifting and hoisting methods • Watch for tripping hazards etc around bracing • Always use ladders for access – never climb the propping of falsework • Never take short cuts
<p>Pre-Start Checks and Safety</p> <ul style="list-style-type: none"> • Always take extreme caution when working with Acrow Props • Always ensure you have good foundations and soil conditions • Always use safe lifting practices to prevent back injuries and strains etc • Always ensure good clear access to the site • Ensure proper erection and dismantling to prevent collapse of props or entire system • Never overload, check the “Safe Working Load” (SWL) for the props you are using 	<p>IF IN DOUBT ASK</p> <ul style="list-style-type: none"> • Check with your engineer and/or site foreman • Near enough is not good enough
<p>CONTACT US If you are having any difficulties with this piece of machinery/equipment, please contact us immediately on 0800 30 30 20 follow the options to General Hire.</p>
